DRAFT Work Programme 2022

CORPORATE PRIORITIES

Continuing activities to support a new paradigm for SGIs in Europe:

Building up on the activities initiated in 2021, SGI Europe will continue to support and promote a new vision for Europe, where SGIs hold the centre of the stage. This priority will be articulated around the following files:

- Monitoring the **implementation of the Recovery and Resilience and the National Recovery and Resilience Plans**, mainly via SGI Europe project "Involving SGIs in the European Semester" to reinforce the participation of SGIs in the European Semester
- Playing a leading role in the discussion on the review of the EU economic governance
- Understanding and promoting access to essential services and SGIs as a central element of the European way of life
- Promoting the **key role of SGIs in the Just Transition**, both in the legislative processes underway (proposal for a Council recommendation on Just Transition) and via SGI Europe project "Green Skills in VET"

Maximising the impact of SGI Europe in shaping the EU approach to sustainable finance:

With its seat in the Platform on sustainable finance, SGI Europe will **reinforce its involvement in the debates on the promotion of sustainable finance** in the EU, both on the **green and on the social dimension of the EU taxonomy.** SGI Europe will also conclude the 8th edition of the 'SGI Europe CSR Label', with the awarding ceremony on 23 February 2022 in Paris, and start a new era for the Label with a focus on the implementation of the EU taxonomy

Optimising the potential of SGI Europe seats in transversal platforms and organisations:

- **Fit-for-Future Platform**: Using the seat to potentiate SGI Europe stance on better regulation and administrative simplification, whilst increasing the place of SGIs in the "Foresight approach" of the European Commission
- Conference on the Future of Europe: Ensuring the visibility and activity of SGI Europe by:
 - o Calling for meaningful outcomes to the CoFoE, via the participation in the plenary and the working groups
 - Increasing links with European Parliament, across all political groups
 - Using the momentum created by the CoFoE for recruitement and retention missions
- European Movement International: Using the Vice-Presidency to reinforce the role of SGI Europe as a socially responsible employers' organisation, close to citizens needs

Supporting membership recruitment and retention:

- Continue to promote and develop, together with SGI Europe sections and members, activities to grow and develop existing sections
- Support the setting-up of new national sections in order to improve SGI Europe representativeness
- Enlarge the scope of our membership, including big and small organisations, active at both national, regional and local levels, and representing hard and soft infrastructures

Operationalising the proposed additional working groups on equality and on industrial strategy, building up on the success of the SGI Europe Digital Policies Working Group

MEETINGS AND IMPORTANT DATES

Statutory meetings:

- 8 June 2022
- 15 December 2022

SGI Europe CSR Label Awarding Ceremony: 23 February 2022, in Paris (France)

PUBLIC SERVICES BOARD

Overarching priorities

- Exploring the possibility of designating Digital services as Services of general interest
- Creating an overview of the definition of 'in house provision' in the national jurisdictions across the EU, in order to better understand the diversity
- Developing the strategy for the Next Generation EU and Long-term investments in Public Services, including the shift in paradigm to consider investment in SGIs as longterm strategic investments
- Lobbying for the change of SME Definition: the approach would be twofold and aimed at alleviating the administrative burden on LPSEs and strengthening our engagement in the European Parliament
- Overview of different managerial systems of local public enterprises across the EU, in order to strengthen our arguments on the SME Definition

Activities on the review of the EU competition framework

Monitoring of the activities highlighted by the European Commission in their communication "A competition policy fit for new challenges", including in particular:

- The prolongation of the State Aid Temporary
 Framework (extended until 30 June 2022) and the
 Solvency Support Instrument
- The Climate, Environmental Protection and Energy Aid Guidelines (CEEAG), that aim at providing the necessary support to make the green transition a reality
- The Broadband State Aid Guidelines (public consultation opened until 11 February 2022)
- The General Block Exemption Regulation (public consultation opened until 8 December 2021)
- The Railway Guidelines, to align the guidelines with the major regulatory and market developments and the EU Green Deal.
- Publication of a Staff working document summarizing the outcomes of the evaluation of the 2012 SGEI
 Package on healthcare and social services.

SOCIAL AFFAIRS BOARD

EU Social Partners' Work Programme 2022-24 and integrated projects

- Negotiations of the next EU Social Partners Work programme 2022-2024 – finalisation of the negotiations early 2022 and follow-up implementation of first activities
- Integrated projects 2022: Promotion and support of the implementation of EU social partners framework agreement on digitalisation
- Capacity-building for a stronger social dialogue: two meetings of the Subgroup of the Social Dialogue Committee on implementation and follow-up of European social dialogue instruments
- Further activities will be defined by the EU social partners WP 2022-2024

Legislative agenda of the European Commission

- Follow-up to the European Commission proposal for a communication and Council Recommendation on social dialogue. Participation to the hearings and consultation processes organised by the EC for this purpose
- Follow-up to the Council and Parliament negotiations regarding the directive proposal for fair minimum wages
- Follow-up to the Council and Parliament negotiations regarding the EU proposal for a directive proposal on pay transparency
- Follow-up to the European Commission proposal on improving the working conditions in platform work
- Follow-up to the European Commission (DG COMP) guidelines with regard to collective bargaining for soloself employed
- Follow-up to the European Commission action plan on social economy
- Follow-up of EU Gender Equality Strategy
- Follow up of any new relevant initiative related to the European Pillar of Social Right and the Action Plan
- Follow up of the implementation and interpretation of the Transparent and predictable working conditions directive

SUSTAINABILITY BOARD

For a Just and Successful SGI orientated European Green Deal

The Sustainability Board is entering the crucial phase of the 'Fit for 55 Package' (FF55), which is bringing to life the objective of reducing by 55% the EU greenhouse gas emissions by 2030. The Board will actively follow the development on the European Parliament and EU Council side, including the monitoring of the upcoming Carbon Removal Certificate. The Board will continue to support a vision for a decarbonised and sustainable economy, fair for EU citizens and environmentally friendly.

A specific focus will be put on the need for the energy and climate transition to be socially acceptable. The Board will actively work with the Social Affairs Board on the Just Green Transition Agenda and promote its ambition for a just transition, in which SGIs play a vital and essential role. This should also be concretely reflected in the development of the newly proposed Social Climate Fund.

This will be also complimented through the long-term project of the Board's "From Vision to Action", providing examples from our members and add valuable insights to reach for climate-neutrality by 2050.

Long-term planning for a sustainable, resilient and green SGI infrastructure

The Sustainability Board will continue the work on the Strategic Foresight approach of the European Commission, combining an approach going beyond mitigation and greenhouse gas emissions reduction and including a more holistic approach to protect human health, biodiversity and the ecosystems and preventing pollution of essential resources such as soils and water. This work will also be assisted through the work programme of the Zero Pollution Action Plan.

The Board will also put great emphasis in building robust and SGI-friendly Resilience Dashboards, advocating for their use as tools of objectiveness in the development of the EU Taxonomy. This should lead to EU climate and energy policies to be implemented following facts and science to ensure foresight of the EU infrastructures.

Activities on the Public Procurement Package

 Monitoring the developments regarding the reporting exercise underway, including the sustainable dimension.

Meetings

- April (exact date TBC)
- November (exact date TBC)

- Follow up on the work of the **European Labour Authority**
- Follow up on the strategic framework on health and safety and relevant initiatives
- Follow up on the Commission report on the working time directive
- Follow-up of any new relevant initiative within the social affairs field under the supervision of Commissioner Schmit

Meetings

Social Affairs Board:

- 7 February
- 13 June
- 26 September

Social Dialogue Committee (TBC):

- 8 February
- 14 June
- 27 September

Annual sustainable growth strategy:

• 28 September

With the upcoming 2022 Foresight Report tackling the twin transition, the Board will look into this new aspect through the lens of the European Commission's upcoming action plan on digital transformation of the energy sector as well as on the Greendatat4All Action plan.

Ensuring the recognition of SGIs in developing of sustainable green finance

As the Sustainable Finance Platform enters its final year to finalise the second Delegated Act on the EU Taxonomy on the four remaining environmental objectives, the Board will continue to bring SGIs at the front of the conversation on identifying sustainable activities, focusing on the green activities, especially looking into the potentials of developing criteria for circular economy and transitional activities needed for the energy transition.

The Board will also follow up and monitor the development of the uncoming European Green Boards to ensure

of the **upcoming European Green Bonds** to ensure members of the Board are well informed and have the full picture of the Sustainable Finance Package.

Lastly, the Board will continue to **strengthen the link between SGIs and modern sustainable solutions** for all European citizens and will continue to base its discussions on the three main pillars:

- Investment
- Inclusion
- Resilience

Meetings

- 24 February
- 30 September
